Note:

This Table uses data from URS/DIG Table 2a, Table 2b and from the U.S. Census Bureau.

All denominators use U.S. Census data from 2000.

U.S. Totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

2a We do not separate Native Hawaiian/Other Pacific Islander and Asian into 2 categories, so all are included under Asian.

2b We don't currently track race/ethnicity this way. We have 2 variables. Ethnicity (African American, Asian/Pacific Islander, White, Native American, or Other) and Hispanic origin. If a persons is of Hispanic origin, that takes precedence over any of the ethnicity categories. So, if a person is of Hispanic origin and they are Native American, they would only be counted as Hispanic.
